Raffaella from Peru, who joined Winter Course 2017 says,

"I had the opportunity to go to Brillantmont. To be honest, at first I wasn't sure if I really wanted to go; I was going completely alone, I didn't know anyone there, but I knew that I would become more independent. When I got to Brillantmont, I was really nervous. I thought I wasn't going to make friends or have fun, but it was completely the opposite. I met a lot of people and became really close friends with some. I'm still in contact with them. I improved my English and French. I learned to be more interactive with people and learned about other cultures. I had a lot of fun and it was an amazing experience. I'm really grateful that I had the chance to stay there, and I wouldn't hesitate to return."

The Winter Course at Brillantmont International School in Lausanne is the ideal place to spend a period abroad, following High School classes, learning or improving French and joining excursions and ski trips in the beautiful Lake Geneva region.

Winter Course students live on the Brillantmont campus, which is in the heart of Lausanne, a dynamic, lively city, well known for being the Olympic Capital. Lausanne is on the lakeside, overlooking the Alps and has many cinemas, excellent sports facilities, theatres, shops and cafes, which appeal to the students. The Brillantmont campus is a five minute walk from the city centre, in a leafy suburb. During the school year beautiful buildings are home to around 130 students from over 35 different nationalities. The Winter Course students live and study alongside those school year students, making friendships which last a lifetime. At all times the student's safety and security are paramount and Brillantmont's teaching and boarding staff ensure that everyone feels happy and settled in the Brillantmont family.

The Winter Course begins on Sunday 7th January 2018 and lasts for 6 weeks. Students have the option to stay for a 7th week and participate in our Ski Week which is in Zinal, a traditional Swiss ski resort which has 120km of slopes for all levels.
